ScanSnap iX500

Easily digitises various document types

“Total support” from digitisation through to application

Simple, Speedy & Compact!

Easily digitises paper based data with the touch of one button

The iX500 facilitates simple PDF generation with the following one touch activated automatic settings and automatic image correction functions:

• Blank page detection

• Auto deskew and auto orientation

• Auto-size detection

• Automatic resolution function

• Intelligent auto colour detection

Speedy

Just place a document in the scanner's paper chute, press the “scan” button, and the iX500 starts scanning right away. Furthermore, the iX500 is able to simultaneously scan up to 50 two-sided pages at a speedy 25 pages per minute.

Scans everything from business cards to A3 sized documents

ScanSnap Carrier Sheets

Use of a carrier sheet enables iX500 users to digitise larger documents (A3/B4), as well as magazine and newspaper clippings and photographs. Such document containing carrier sheets can be scanned successively or mixed in with regular paper documents.

Intuitive “Quick Menu” for intelligent and flexible operation

The Quick Menu can be set up to display your ‘Favourite’ scanning destinations or will ‘Recommended’ an application; eg. Scan a business card which will then be automatically recognised and a list of business card related applications will be recommended.

• Quick Menu for Windows® OS

• Quick Menu for Mac OS Users

 Now make your paper productive

ScanSnap Folder, simplifying scanning to your favourite applications

Does your Windows application have an import or browse command? If so you can now easily scan directly to this application even when no scanning interface is available assuming it supports pdf or jpg. Simply browse to the new 'ScanSnap Folder' within your local computer, hit the blue scan button and your document will then be automatically imported into your application and then deleted from 'ScanSnap Folder'. For further information please visit www.ScanSnapit.com/SSF

Generates editable PDF files

- Comes bundled with Adobe® Acrobat® X Standard, which enables users to move beyond merely "seeing" and "printing" generated data, to editing generated PDF files however they like
- Generates password and digital ID attached PDF files that are ideal for safeguarding personal information and other confidential information that needs to be protected

Bundled  Perfect for everything from PDF creation to application
ADOBE® ACROBAT® X STANDARD

Seamless linking to Cloud services

The iX500 offers direct interaction with your cloud service allowing you to access your documents from any device and at any time or anywhere. The iX500 supports direct scanning to Evernote, Dropbox, Google Docs™, Salesforce and SugarSync.

Efficiently organises business card information

- Scans large volumes of business cards into digital business card holders
- Enables users to enter scanned data into Excel®, Outlook Express, Salesforce and other databases for future reference

Bundled Business card scanning software
CardMinder™ V5.0

Windows OS only ScanSnap iX500 Deluxe includes Rack2-File Smart

Rack2-File Smart allows you to save your scanned and existing digital data in realistic looking bookcases and files that can then be easily retrieved and flipped through the way you may with regular files.

Access and utilise this data anywhere whether through your cloud services or if via a smart device, you can edit, add a comment and then save or redistribute.

Additionally organise / edit image files or scan data imported from ScanSnap in a workspace simulating an actual desktop. You can seamlessly organise your work by categorising data per group and you can also share information with a group with the communication function that links with Facebook.

Scan via WiFi to your smart devices

The iX500 now offers the unique ability to link directly with your iPad®, iPhone® and Android™ devices via a WiFi connection.

Fitted with a newly developed GI processing engine the iX500 means that users can now wirelessly operate the scanner via their Smart Device and the ScanSnap Connect Application* creating high quality scanned images that can be saved to the device, manipulated, retrieved at a later date and distributed.

* ScanSnap Connect Application is available as a free download from the official application distribution service of the device (e.g., Google Play and Apple App Store).

Enhanced scanning environment centred around a new "GI" image processing engine

The iX500 comes with an inbuilt dual core CPU that takes ScanSnap to that next performance level

- Enables scanning via WiFi to your tablet or mobile device
- Enhanced scanning speeds independent of target device and connectivity
- Offers a paper feeding performance that you would expect with a high speed, high volume device, enhanced through USB 3.0 support
